# The ONE Instrument for Your Home-a GENUINE Victrola

# World's Greatest Artists Endorse the Victrola

When selecting a musical instrument for your home, wouldn't you value the opinions of the world's greatest artists? Wouldn't you like to benefit by what they; know and think of it?

For certainly no one is better qualified to judge a musical instrument! They, know music. Their lifework is music. And what they say and think about the Victrola is of the utmost importance.

The fact that Caruso, Farrar, Rachimaninoff, Heifetz, Galli-Curci, Gluck, Homei, McCoimack, Schumann-Heink, Lauder-and all of the other really famous artists - have chosen the Victrola as the ONE instrument to which they are willing to entrust their professional reputation is stronger than any testimonial they could give.

And that alone is the most convincing argument that the Victrola is the ONE instrument which YOU should choose for YOUR home.

There is Only ONE GENUINE Victrola—This Trademark Identifies It.

# Select Your Xmas Victrola Now—at Aaron's

We want you to see it, listen to it, W Marie Rappold, prima donna of the test it for yourself. This marvelous phonograph can give the family more pleasure than any other instrument you can buy them for Christmas. Here is why:

This phonograph has actually proved that it can match the performance of the living artist,-and match it so perfectly that no one can tell its Rx-CREATION from the living performance.

It did this on March 10, 1920 before 2500 people at Carnegie Hall, New York City-with Anna Case, the worldfamed soprano. It did this on September 30th, 1919, before 2500 people at Carnegie Hall, Pittsburgh-with

It did this over 4000 other times, with more than fifty great vocalists and instrumentalists. You can read the facts of these amezing achievements in the leading newspapers of the United States and Canada. They are the talk of the music and scientific world.

And the phonograph? It's the Official Laboratory Model of the New Edison, "the phonograph with a soul." Every Official Laboratory Model in our store is an exact duplicate of the famous original Official Laboratory Model which cost Mr. Edison three million dollars to perfect. Then came the series of \$10 fines and \$25 fines, imposed upon violators of the law—and then came a growing diste-spect of the law, with violations being daunted in the eyes of the public."

The success with which we do the reaping is what deeply concerns the thoughtful citizens. Will we be able 'to abate the eyils that have developed from the failure to maintain the ma-jesty of the law, and to restore respect
